

Leasys and Free2Move e-Solutions join forces to launch a rental car plug&play charging system

Starting from 27 July, the fee for electric and hybrid cars rented with Noleggio Chiaro by Leasys will include an easyWallbox supplied by Free2Move eSolutions for home electric charging. A shared project, designed to further enrich Leasys's sustainable mobility offer

Milan 27 July 2021 – **Leasys** and **Free2Move eSolutions** announce a free charging project, taking another step towards increasingly mature and efficient electric mobility.

From 27 July, the rental fee for all electric and hybrid cars rented with **Noleggio Chiaro**, elected Product of the Year 2020 in the Car Services category, -the flagship product of the Leasys portfolio, will include an **easyWallbox**, a plug&play home charging system developed by Free2Move eSolutions. Easy to use and with no installation cost, easyWallbox will be supplied with the rented car, together with cables for home and public charging and the Leasys e-mobility card for free charging at Leasys Mobility Stores. It will be sufficient to plug the easyWallbox into an electrical socket in the garage or car park to charge an electric or plug-in hybrid car at 2.3 kW. In addition, all Leasys customers will have the opportunity to request - at a special price, not included in the fee - the professional installation that will allow the easyWallbox to operate at up to 7.4 kW and to use in real time only the power available in the home, avoiding any risk of blackout.

Noleggio Chiaro, elected Product of the Year 2020 in the Car Services category

Noleggio Chiaro is one of Leasys' flagship products: an innovative long-term rental solution that allows customers to have a right of first refusal on the purchase of the car at the end of the contract and to know the price of the car at the end of the rental period from the outset. For customers who want an all-inclusive package that relieves them of any burden, Noleggio Chiaro is available in the standard plan, which includes routine and extraordinary maintenance, as well as theft, fire and damage repair insurance. It is also available in the light formula, which allows customers to rent a car for a competitive fee with a minimum set of services: third party liability (RCA) insurance, road tax, roadside assistance, the I-Care infomobility service and the usual use of the Leasys UMove app to manage the contract from a smartphone.

*"We are proud of this first initiative that brings together Leasys and Free2Move eSolutions, two brands sharing a common link with the Stellantis Group and top players in the eco-sustainable mobility space," said **Giacomo Carelli, CEO of FCA Bank and Chairman of Leasys**. "This partnership is a decisive step in the creation of an increasingly complete range of rental products integrated into a charging ecosystem, to the benefit of both the environment and consumers".*

Roberto Di Stefano, CEO of Free2Move eSolutions, said: *"Combining the winning features of Free2Move eSolutions and Leasys in a partnership does not just mean participating in the spread of electric vehicles by transforming the use of these cars into a common and consolidated habit, but advancing a completely different concept for their use for mobility in general. Only in this way it will be possible to contribute effectively to the achievement of the sustainability goals we have set for ourselves".*

About Free2Move & Free2Move e-Solutions

Free2Move is a global mobility brand offering a complete and unique ecosystem for its private and professional customers around the world. Relying on data and technology, Free2Move puts the customer experience at the heart of the business to reinvent mobility and facilitate the transition to e-mobility.

Free2Move eSolutions is a joint venture between Stellantis and Engie EPS, aiming to become a leader in the design, development, manufacturing and distribution of electric mobility products. In a spirit of innovation and as a pioneer, the company will guide the transition to new forms of electric mobility, to contribute to the depletion in CO₂ emissions. About Leasys

Leasys, a Stellantis Brand and a subsidiary of FCA Bank, a 50:50 joint venture between Stellantis and Crédit Agricole, was established in September 2001. Leasys offers a complete and innovative system of mobility services to individuals, professionals and businesses of all sizes: from short, medium and long-term rentals to peer-to-peer car sharing via the U Go platform and I-Link. At the end of 2019, it launched the first car subscription service in Italy with CarCloud. With the Clickar brand, Leasys is also one of the leading Italian online and offline retailers of pre-owned company cars to individuals, professionals and companies. Headquartered in Italy, Leasys began a process of internationalization in 2017 by opening multiple offices throughout Europe: today the company operates in Spain, France, the United Kingdom, Germany, Belgium, the Netherlands, Portugal, Denmark and Poland, managing a fleet that will have over 400,000 vehicles by the end of 2021. In June 2019, the company launched the Leasys Mobility Stores, physical outlets with a grassroots presence across Italy. The Stores, which provide customers access to all the mobility services provided by Leasys, are now available in France as well and will open soon also in the other European countries where the company is operational. With the launch of the first totally electrified Mobility Store in Torino Caselle airport, Leasys is on track to become a key operator also for sustainable mobility. In fact, thanks to the installation of over 1,200 charging stations in all the stores, at the end of 2020, Leasys had Italy's largest private electrified network. In 2021, the electrification project will continue also in the European countries in which Leasys operates.
